Company: Kinexus

Location: Canberra

Category: other-general

Storage Engineer - RFQ-AGO23/24-075 - SOW 1 - Original

Due to the nature of clients we work with here at Kinexus and the projects these roles will be based on, an Australian Government Top Secret Positive Vetting (TSPV) clearance is essential.

These opportunities do not have the ability to obtain sponsorship for a security clearance (including applicants who currently hold a security clearance seeking to upgrade).

ABOUT THIS ROLE The Storage Engineer will be responsible for working under limited direction as a member of a team responsible for delivering enhancements and new capabilities required across multiple security domains for DEF100 Phase 1.

The role involves the provision of ICT Systems Administration (Storage and Backup) to enable the efficient sustainment of current infrastructure and design of future backup and storage solutions within a complex environment spanning multiple geographically separated data centres and remote offices.

The Specified Person will be expected to demonstrate attributes of SFIA Level of Responsibility 4.

Current Top-Secret Positive Vetting (TSPV) security clearance is strongly preferred, however candidates who have held a TSPV in the previous 12-month period (which has since been downgraded) may be considered.

ABOUT THE COMPANY The Australia Geospatial-Intelligence Organisation (AGO) is the lead agency for geospatial data, information and intelligence for Defence and the National Intelligence Community. AGO's purpose is to shape the strategic environment, deter actions against Australian interests, and respond with credible military force when required.

Situated in Canberra, AGO is a small organisation of TSPV cleared workers that is rapidly growing. Exciting projects such as DEF100 and DEF101 are managed by AGO.

AGO is seeking highly skilled and motivated personnel to apply their skills and knowledge to achieve AGO's strategic goals: to deliver geospatial intelligence; lead the Department of Defence geospatial domain; and position our organisation for the future. Long contracts (12 or 24 months) available.

KEY RESPONSIBILITIES Contribute to developing new capabilities within existing datacentre and distributed storage environments. Takes responsibility for the development of upgraded data centre systems as part of a broader data centre architecture. Produces detailed design, configuration, implementation, and support documentation. Manages reviews of the benefits and value of other designs and integration challenges and recommends improvements. Using storage management tools diagnose and resolve system and environment problems. Document the analysis of problem patterns and performance trends. Establish capacity planning and management procedures. Identify system interdependencies and liaise with other system stakeholders to resolve conflict and coordinate integrated solutions. Establish and foster productive working relationships by working cohesively and flexibly with the developer team, the broader program team, key business partners and stakeholder groups. Develop a schedule of work and report on progress.

SKILLS & EXPERIENCE NEEDED Australian Citizenship and a TSPV security clearance is essential. Demonstrated knowledge of storage architecture and topologies. Demonstrated knowledge of current storage technologies and solutions in classified environments.

BENEFITS

Why work for AGO?

Work on interesting and prestigious projects vital to the ongoing defence of Australia. Flexible work environment; work the hours that suit you between 7am and 7pm. Low attrition rate: the great variety of projects and opportunities across different business areas. 12 or 24 month contracts available. Fantastic growth opportunities available at any stage of your career.

Why Kinexus?

Kinexus has been supplying TSPV contractors to the TSS panel since 2004 and have a strong relationship with them. We are one of just 9 suppliers Australia-wide. Our experience in managing contractors in defence/national security industries means we understand the requirements from the Commonwealth, insurances and clearances. DISP accredited; we can hold clearances and manage renewals. Dedicated account manager (me!) who is your dedicated POC and offer continuous contractor care. Rate negotiation guidance in line with the SFIA framework. Dedicated payroll assistant who facilitates your taxes and super. We proactively chase timesheet approvers to ensure you get paid on-time and error free. Regular visits to Canberra for coffee, lunches and quarterly drinks events. We can facilitate novated car leases, LAFHA or salary sacrifice. We'll keep you up to date with the most appropriate, interesting opportunities in your field. Community matters. Kinexus supports women in Defence through our female mentoring program and rewards referrers through our Referral Rewards scheme. Support for your health and wellness through counselling support (EAP) available for all contractors and their families. Kinexus is the leading recruitment partner to the defence industry in Australia. We support our community in making intelligent connections and create opportunities to help grow careers.

All applications should include your resume as a word document. For more information, visit our website, www.kinexus.com.au or contact Cindace Prasadat 0449 511 324. #LI-CP
