

UE/Unity Developer Remote (Worldwide)

[Apply Now](#)

Company: Metakey

Location: Australia

Category: other-general

As a UE/Unity Developer, you will play a key role in developing cutting-edge applications, simulations, or games using Unreal Engine (UE) or Unity. You will work closely with cross-functional teams, including artists, designers, and other developers, to bring projects from conception to completion. Your expertise in the chosen engine and strong programming skills will contribute to creating visually stunning and technically impressive experiences.

Responsibilities: Develop and implement features using Unreal Engine or Unity for various platforms (PC, console, mobile). Collaborate with artists and designers to integrate assets and achieve the desired visual quality. Optimize performance and troubleshoot technical issues to ensure a smooth user experience. Stay updated on the latest trends, tools, and technologies related to game development. Participate in code reviews and contribute to the overall improvement of development processes.

Requirements: Proficient in C++ for UE development or C# for Unity development. Strong understanding of 3D mathematics and graphics programming. Experience with optimizing and debugging performance issues. Familiarity with version control systems (e.g., Git). Portfolio showcasing previous UE or Unity projects is a plus.
