Company: Clough Group

Location: Western Australia

Category: other-general

Want to work on an iconic local project? Clough is in alliance with the Water Corporation and Jacobs, to deliver the Engineering, Procurement and Construction (EPC) for the upgrade of the Woodman Point Sludge Treatment Facilities. The scope of the project includes upgrading the facility's sludge treatment processing system. This will enable the recovery of biosolids for agricultural use. The solid material, known as biosolids, will be used as a soil conditioner. Another by-product of the sludge treatment process is biogas, which can be used as a source of energy. Clough is currently seeking expressions of interest for Advanced Riggers to commence in early 2024
